

# Smart TAC Pro

## Mobile time attendance system

- Are you still manually recording your time attendance and having to transfer the data to a computer?
- Are you looking for an easy to use system that will cut out all the hard work preparing the payroll?
- Have your workforce scattered remote sites and are looking for a mobile solution?

**Smart TAC Pro is the solution that you have been looking for...**

When you need to keep track of a workforce that isn't near a conventional clock or constantly on the move, Smart TAC Pro is your optimal solution!

**Smart TAC Pro** can keep track of hundreds of employees at a time on multiple sites. All you need to do is issue each employee with an employee card (that contains his personal details) and the foreman will carry a small Smart TAC device. The employees clock in and out as needed and the foreman has complete control over his crew's whereabouts. The attendance data is downloaded to the manager's computer and used to calculate salaries.

- No on site installation
- No need for cables, electricity, phone lines
- **Battery operated** mobile system
- Light and **easy to use**
- **5** types of management **reports**
- **Weekly, monthly** and date range reports
- **Automatic lunch break deduction**
- Check **late arrivals** in one easy report
- **Reports** can be exported to excel and sent for approval by email
- **Password protected** management system
- **User expandable** – system can manage up to 1000 employees
- **Free software updates**
- **Reliable** - your records are backed up automatically so you will never lose your records
- **Secure** – each employee is issued with his own card – no accidental buddy punching!

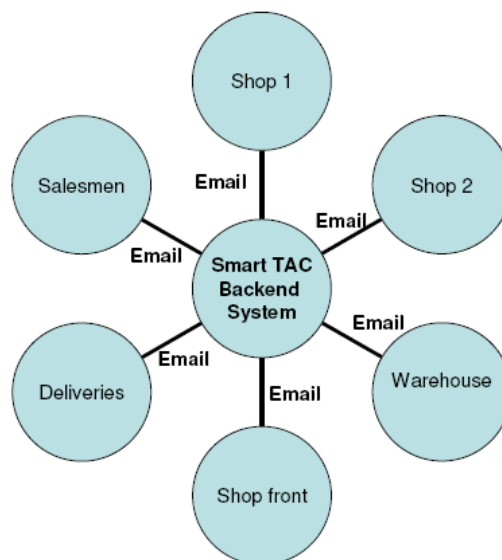

you can

No need for complicated installation, no need for cables or telephone lines, now save time, improve efficiency, and reduce data entry errors with Smart TAC Pro on your site!

**Smart TAC Pro is an ideal solution for many types of companies, such as:**

- Construction companies and remote sites
- Farmers and agricultural
- Home health care
- Landscaping services
- Doctors on call
- Delivery drivers, couriers, fast food deliveries
- Companies with several branches/locations (Shops, restaurants...)
- Security firms
- Companies with temporary staff
- Remote sites
- ...and many more

## Smart TAC Pro – multiple branch operations

Each department/location has its **Smart TAC Pro** device, each employee has an employee card. The manager downloads the data from the Smart TAC and sends it to the head office by email. All payroll calculations are done centrally.
